TO	Chief, Real Estate & Construction Division, OL	XX	MARKED FOR INDEXING
INFO.			NO INDEXING REQUIRED
FROM	Chief of Station, [REDACTED]		ONLY QUALIFIED DESK CAN JUDGE INDEXING
SUBJECT	Current Inventory of F.E. Engineer's Library		MICROFILM
ACTION REQUIRED - REFERENCES			

Reference: [REDACTED] NR

1. Attachments I and II forwarded herewith list both official library materials for reference and personal library materials which are currently maintained in the Far East Engineer's Office. All of the official-use references will be moved to the [REDACTED] Office when it is re-established there.

2. Reference materials of particular interest would be manufacturer's product catalogs such as Graybar, Westinghouse, G.E., Line Material, Caterpillar and G.M. that need updating but are difficult to identify and obtain from a field station. The office currently has a Graybar General Catalog 104.

3. Monthly periodicals such as Electrical Construction and Maintenance and Air Conditioning Heating and Ventilating are considered necessary official subscriptions but delivery has not been consistent since the previous move.
